**NOTE:** When two or more separately owned tracts of land are embraced within an established drilling unit or when there are separately owned interests in all or part of an established drilling unit for which the permit is sought, the application shall affirmatively state whether or not there are separately owned tracts or interests in the drilling unit for which the permit is sought, and if so, whether or not the person(s) owning the drilling rights therein and the rights to share in the production therefrom have agreed to develop their lands as a drilling unit and to the drilling of the well, as contemplated by Section 53-3-7, Mississippi Code of 1972.
